City of Dundee Swimming Club.

Dear friends.

I am writing to thank the club for the very generous sponsorship towards my trip to Shanghai as part of the Great Britain team competing in the 2007 Special Olympics World Games. I am very excited about being one of GBs 155 athletes competing against 7,000 others from 160 countries in 17 sports overall.

I am very proud to be one of four male aquatics athletes and feel it does the City of Dundee Swim Club and the Discovery Swim Club a great honour. I just hope my performance there justifies it. Heather does a really good job in monitoring my training and ensuring things that need addressing are tackled but not always with a successful outcome. She can vouch for that where tumble turns are concerned. Maybe one day I will keep coming up the right way and Heather will faint!

I had no idea I was receiving a presentation at the Harris last night since I thought the press were there to record the end of my sponsored swim week. It took me aback to receive such a large cheque-in both size and amount -and I was only sad that the photographer was early and Gordon missed the Courier photo call but we did get a photo for the club web-site.

My fund raising has gone really well and I am quite relaxed about making my target and even succeeding it thereby being able to help other Tayside athletes going to China who may not be so fortunate in their level of support.

Thank you once again

Yours sincerely,

Andrew Gray
