- Can you help?

-

B Dundee City Aquatics operate a progressive teaching programme working towards the aims and outcomes as outlined within the National Governing body programme. Children then have the opportunity to progress into our structured Squad system to become a competitive swimmer or just to enhance their swimming skills and enjoy the social and health benefits that swimming provides.

U
I
I
e The Club is currently a voluntary run organisation and are looking for willing parents, senior or ex swimmers to assist within the teaching or Squad programmes. You need not have any experience just an interest in swimming or learning more about it. All helpers will be mentored by experienced teachers and Coaches

t
i Without volunteers the Club would not be able to deliver the Quality and quantity of sessions and classes that it currently does. The Club will aim to assist with funding for those who wish to attend UKCC courses or any workshops

If you are interested in helping out please contact
